ABOUT GREENSPOKE

The team at **Greenspoke** has extensive experience with industrial design and the fabrication of bike parking products. We offer a diverse collection of bike parking and repair solutions with an unwavering commitment to producing durable, attractive and eco-friendly products. Whether our catalogue offers the solution you're looking for or simply sparks a new idea, we can make your vision a reality.

Current Designs and Specifications:

As a quality-conscious manufacturer, we are constantly evaluating and improving our products to better serve the needs of our customers. As such, current designs and specifications may change over time without notice.

Note: Detailed specifications for all models are available upon request. These specifications generally include all dimensions and a complete list of materials, hardware, available finishes and notes on installation.

BIKE PARKING CONSIDERATIONS

Short Term Parking (0-3 Hours)

LOCATION

The bike parking area should be located near a major entrance.

VISIBILITY

The bike rack should be easily visible from the road and not in an isolated area.

SPACE

The user can comfortably maneuver around their bike to lock and unlock it.

SAFETY

Bike racks should have ample space around their perimeter to avoid any collisions with surrounding structures.

Long Term Parking (3+ Hours)

CONVENIENCE

Parking area should be easy to access from the cycling route.

WEATHER PROTECTION

Bike and bike accessories should be kept dry while bikes are parked.

SECURITY

Parking area should be well lit, free of hiding places and a video monitor should be visible to the user.

AVAILABILITY

Plan your space based on maximum capacity and keep future additions to the parking area in mind.

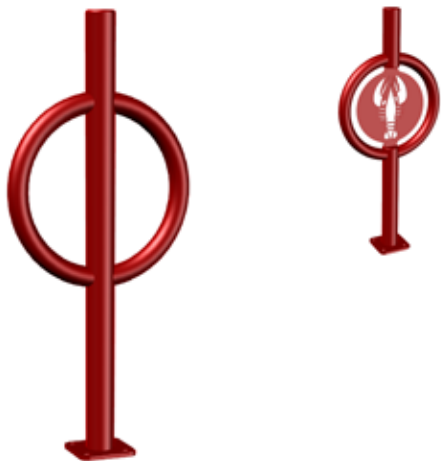

LOW VOLUME PARKING

Single Post Bike Rack

The Single Post conveniently parks 2 bikes with a small footprint that minimally impacts the sidewalk space when not in use.

-  2 BIKE CAPACITY

850297 | In-Ground**

H: 32" W: 29" D: 6"

*Stainless Steel

**Painted High Strength Steel

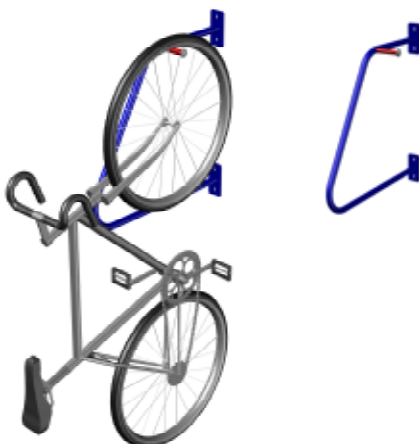

Add 6" (embedded) for In-Ground

Wall Hanger Single Bike Rack

The Wall Hanger Rack is ideal for small, indoor spaces and stores bikes securely up off the floor. Hanger height can be staggered for compact storage. Installation requires location on wall studs or on a masonry/concrete wall.

 1 BIKE CAPACITY

 WALL MOUNT ONLY

AVAILABLE MODELS:

850460 | Wall Mount

H: 30.5" W: 27"* D: 5"

Minimum 70" from floor to top

*Extends from wall

Bike Shelf Hanger

The Bike Shelf Hanger is ideal for home or office to conveniently park your bike. With an upper shelf and hooks, you can also store your helmet, tools or other bike accessories. Simple maintenance can also be performed while the bike is on the hanger.

 1 BIKE CAPACITY

 WALL MOUNT ONLY

AVAILABLE MODELS:

851150 | Wall Mount
H: 7" W: 12.5" D: 13"

Minimum 40" from floor to top of shelf recommended

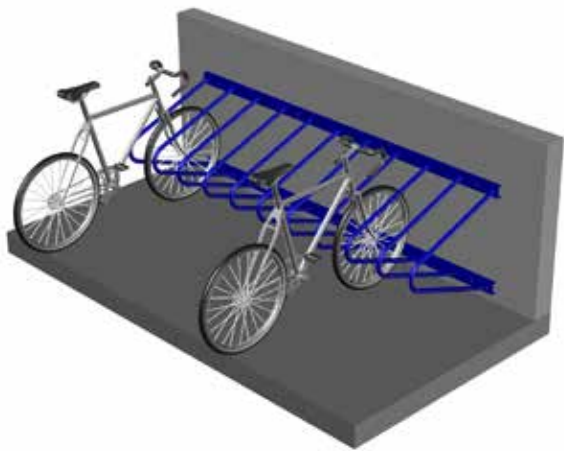

HIGH VOLUME PARKING

Wall Mount 10-Bike Rack

The Wall Mount Rack turns any unused wall into an instant bike parking zone. The shape provides good bike support and multiple locking points on each bike. This rack requires anchoring to a masonry/concrete wall.

-  10 BIKE CAPACITY
-  WALL MOUNT ONLY

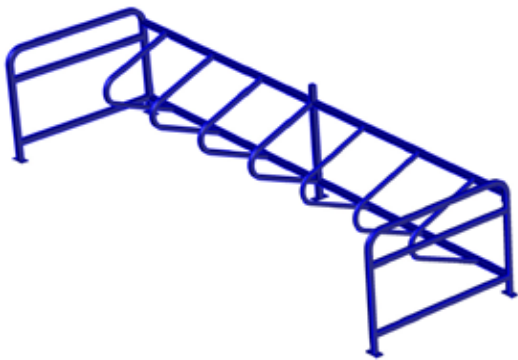

AVAILABLE MODELS:
850490 | Wall Mount
H: 28.7" W: 103" D: 30" From Wall

Single Bike Stall

A Single Bike Stall fits 14 bikes in the space required for one car. Cyclists are separated from the flow of vehicular traffic by an end rack on either side of the stall.

-  14 BIKE CAPACITY
-  SURFACE MOUNT ONLY
-  CUSTOM LOGO OPTION AVAILABLE

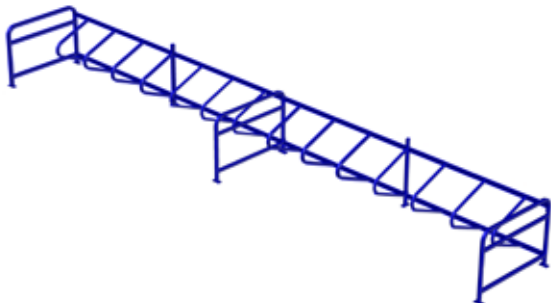

AVAILABLE MODELS:
854000 | Surface
H: 46" W: 214" D: 62"

Double Bike Stall

A Double Bike Stall fits 28 bikes in the space require for two cars. Cyclists are separated from the flow of vehicular traffic by an end rack on either side of the stall.

-  28 BIKE CAPACITY
-  SURFACE MOUNT ONLY
-  CUSTOM LOGO OPTION AVAILABLE

AVAILABLE MODELS:
854000-1A | Surface
H: 46" W: 428" D: 62"

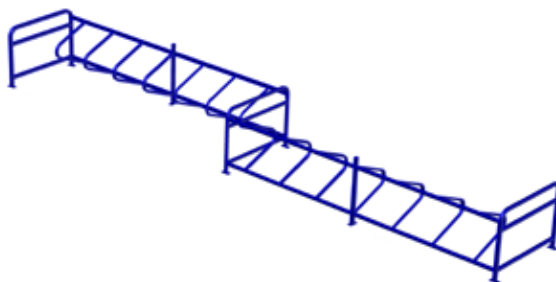

Alternating Double Bike Stall

The Alternating Double Bike Stall allows for cyclists to enter from either side of the stall and keeps a comfortable space between bikes.

 28 BIKE CAPACITY

 SURFACE MOUNT ONLY

 CUSTOM LOGO OPTION AVAILABLE

AVAILABLE MODELS:

854000-1A(A) | Surface

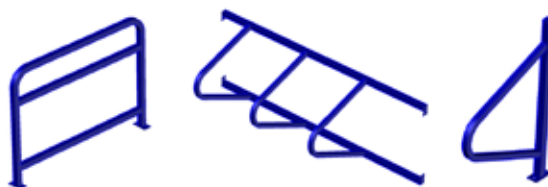

H: 46" W: 428" D: 62"

Bike Stall Components

End Racks are used as both a stabilizing component and a barrier between cyclists and vehicles. Custom logo panels can be provided on the End Racks.

The **Mid Rack** is the component that bikes are secured to.

The **Joining Post** joins and stabilizes two Mid Racks and provides additional bike capacity.

COMPONENTS:

854000-E | End Rack

854000-M | Mid Rack

854000-J | Joining Post

M-Rack (Standard)

The M-Rack provides high density bike parking and is available in a variety of lengths to suit your needs. The rolling design of the heavy gauge steel tubing suits a variety of locations.

 3-11 BIKE CAPACITY

 SURFACE MOUNT
 IN-GROUND MOUNT

AVAILABLE MODELS:

2 Humps (3-5 Bike Capacity)

850060 | Surface

H: 28.38" W: 44" D: 16"

7 Bike Capacity
850450 | Surface
H: 28.38" W: 57.75" D: 16"

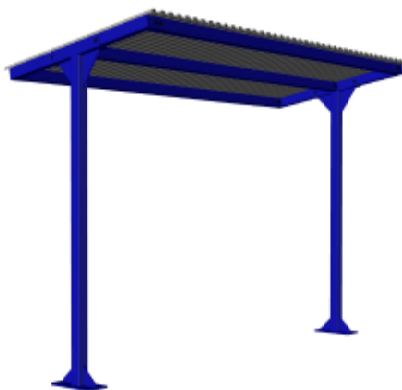

BIKE SHELTERS

2-Post Bike Shelter

With its smaller footprint, this simple but effective shelter can protect 6-8 bikes from the worst elements and the mid-day sun. The frame is constructed from rugged, tubular steel and the roofing panels are corrugated steel. This design is simple to assemble and multiple 2-Post shelters can be linked together (daisy-chained) to provide a protective colonnade of infinite length. Columns can be anchored directly to a reinforced concrete pad or to concrete piers.

SURFACE MOUNT ONLY

AVAILABLE MODELS:

855020 | Surface

H: 101" W: 135" D: 77"

4-Post Bike Shelter

This shelter is designed to provide maximum weather protection for 10 or more bikes. The frame is constructed from rugged, tubular steel and the roofing panels are corrugated steel. This design provides superior stability and the modular system is simple to assemble. Columns can be anchored directly to a reinforced concrete pad or four separate concrete piers.

SURFACE MOUNT ONLY

AVAILABLE MODELS:

855010 | Surface

H: 103" W: 192" D: 89"

Cycle Sitter

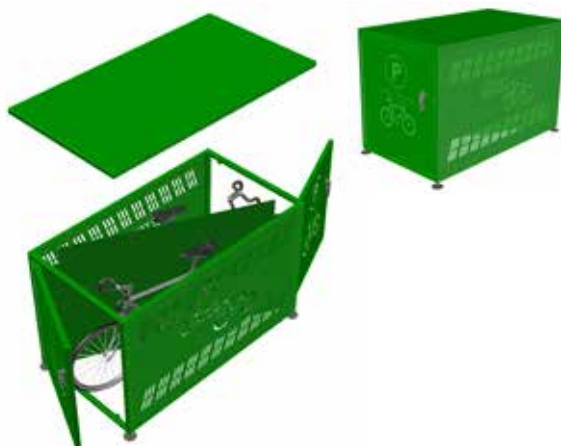

The Cycle Sitter provides secure, weather-resistant protection for your bike(s). Each bike nests in its own compartment with a separate locking door. With a user-supplied padlock, your bike and gear can be safely stored away from prying eyes. Solid sheet and tubular steel construction with no exposed fasteners provides extra security.

2 BIKE CAPACITY

SURFACE MOUNT ONLY

AVAILABLE MODELS:

855950 | Surface

H: 50" W: 42" D: 76"

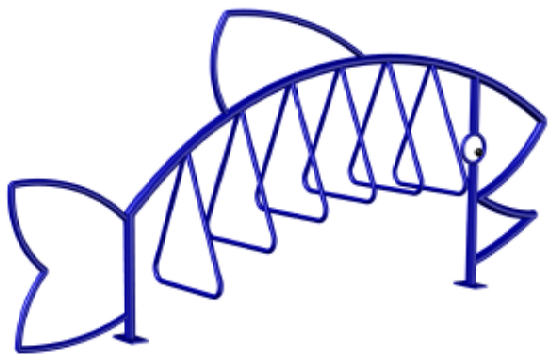

CUSTOM PARKING

Something Fishy 3-D Bike Rack

The Something Fishy Rack is a unique way to add whimsical fun to bike parking and complements themed areas. The triangular loops provide secure locking points.

 6+ BIKE CAPACITY

 SURFACE MOUNT
IN-GROUND MOUNT

BIKE REPAIR

Freestanding Bike Repair Post

The Freestanding Bike Repair Post offers two bike hangers and a full set of the most commonly required bike repair tools suspended from either high-security chain or aircraft cable.

 **SURFACE MOUNT ONLY**

AVAILABLE MODELS:

RP-V1

H: 59"

W: 16"

D: 33"

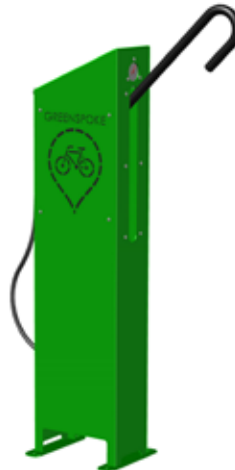

TOOLS INCLUDED:

- Phillips Screwdriver
- Flat Head Screwdriver
- Allen Wrench Combo Set: 2.5, 3, 4, 5, 6 and 8 mm
- Open-end, flat wrenches for pedals, hubs and bearings: 13, 14, 15 and 16 mm (qty of 2)
- Open-end, flat wrench for head set: 30, 32, 36 and 40 mm
- 6" adjustable wrench for axle nuts, etc.
- Tire Irons (qty of 2)

Freestanding Pump

The Freestanding Pump provides a convenient way for you to air up your bike's tires. The industrial air cylinder provides high pressure air without the maintenance typically required by diaphragm style pumps. All components are securely housed in a rugged cabinet.

 **SURFACE MOUNT ONLY**

AVAILABLE MODELS:

GP-V1

H: 51"

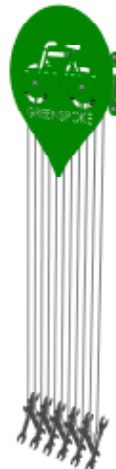

W: 39" (Max)

D: 10"

Wall Mount Repair Station

The Wall Mount Repair Station provides 9 of the most commonly required tools for road-side repairs or adjustments. The tools are safely secured on flexible tethers that are secured to a low-profile locking channel which is mounted to the wall. The decorative cover provides a further level of security by hiding the channel locking points.

 **WALL MOUNT ONLY**

AVAILABLE MODELS:

RP-V4

H: 56.4"

W: 15.6"

D: 6"

TOOLS INCLUDED:

- Phillips Screwdriver
- Flat Head Screwdriver
- Allen Wrench Combo Set: 2.5, 3, 4, 5, 6 and 8 mm
- Open-end, flat wrenches for pedals, hubs and bearings: 13, 14, 15 and 16 mm (qty of 2)
- Open-end, flat wrench for head set: 30, 32, 36 and 40 mm
- 6" adjustable wrench for axle nuts, etc.
- Tire Irons (qty of 2)

Freestanding Bike Repair Post With Integrated Pump

The Repair Post is a convenient place to perform road-side bike repairs or fill a tire while holding your bike on the built-in hanger. All components are securely housed in a rugged enclosure.

- 850410 | Surface
- 850420 | Surface *(8" Custom Logo Plate)*

Squared Arch Bike Rack 6

- 850360 | Surface
- 850365 | In-Ground
- 850370 | Surface *(8" Custom Logo Plate)*
- 850375 | In-Ground *(8" Custom Logo Plate)*

4-Way Bike Hanger Post..... 7

- 850470 | Surface
- 850475 | In-Ground

Yield Rack 7

- 850310 | Surface
- 850315 | In-Ground

Scooter Rack 7

- 850570 | Surface

Chevron..... 8

- 851000 | Surface
- 851005 | In-Ground

Peak Bike Rack..... 8

- 850295 | Surface*
- 850290 | In-Ground*
- 850298 | Surface**
- 850297 | In-Ground**

Wall Hanger Single Bike Rack..... 8

- 850460 | Wall Mount

Bike Shelf Hanger..... 9

- 851150 | Wall Mount

HIGH VOLUME PARKING

Wall Mount 10-Bike Rack..... 11

- 850490 | Wall Mount

Single Bike Stall..... 11

- 854000 | Surface

Double Bike Stall 11

- 854000-1A | Surface

Alternating Double Bike Stall..... 12

- 854000-1A(A) | Surface

Bike Stall Components 12

- 854000-E | End Rack
- 854000-M | Mid Rack
- 854000-J | Joining Post

M-Rack (Standard) 12

2 Humps (3-5 Bike Capacity)

- 850060 | Surface
- 850110 | In-Ground

3 Humps (5-7 Bike Capacity)

- 850080 | Surface
- 850120 | In-Ground

- 4 Humps (7-9 Bike Capacity)
 - 850090 | Surface
 - 850130 | In-Ground
- 5 Humps (9-11 Bike Capacity)
 - 850100 | Surface
 - 850140 | In-Ground

Heavy Duty M-Rack 13

- 2 Humps (5 Bike Capacity)
 - 850602 | Surface
 - 850612 | In-Ground
- 3 Humps (7 Bike Capacity)
 - 850603 | Surface
 - 850613 | In-Ground
- 4 Humps (9 Bike Capacity)
 - 850604 | Surface
 - 850614 | In-Ground
- 5 Humps (11 Bike Capacity)
 - 850605 | Surface
 - 950615 | In-Ground

Raked M-Rack 13

- 2 Humps (4 Bike Capacity)
 - 850702 | Surface
 - 850712 | In-Ground
- 3 Humps (5 Bike Capacity)
 - 850703 | Surface
 - 850713 | In-Ground
- 4 Humps (6 Bike Capacity)
 - 850704 | Surface
 - 850714 | In-Ground
- 5 Humps (7 Bike Capacity)
 - 850705 | Surface
 - 850715 | In-Ground

3-Arch Angled Rack 14

- 850040 | Surface

Multi-R Rail Rack..... 14

- 3 Racks (6 Bike Capacity)
 - 850813 | Surface

- 4 Racks (8 Bike Capacity)
 - 850814 | Surface
- 5 Racks (10 Bike Capacity)
 - 850815 | Surface
- 6 Racks (12 Bike Capacity)
 - 850816 | Surface

Multi-Arch Rail Rack..... 14

- 3 Arch (6 Bike Capacity)
 - 850803 | Surface
- 4 Arch (8 Bike Capacity)
 - 850804 | Surface
- 5 Arch (10 Bike Capacity)
 - 850805 | Surface
- 6 Arch (12 Bike Capacity)
 - 850806 | Surface

Triangle Loop Rack..... 15

- 3 Loop (4-6 Bike Capacity)
 - 853003 | Surface
- 4 Loop (5-7 Bike Capacity)
 - 853004 | Surface
- 5 Loop (6-8 Bike Capacity)
 - 853005 | Surface
- 7 Loop (8-10 Bike Capacity)
 - 853007 | Surface

5-Loop Rack (Municipal Style) 15

- 850030 | Surface
- 850035 | In-Ground

Ripple Rack..... 15

- 850260 | Surface

High Density Rack 16

- 3 Bike Capacity
 - 850430 | Surface
- 5 Bike Capacity
 - 850440 | Surface
- 7 Bike Capacity
 - 850450 | Surface
