Shown with Skateboard
in Place for Repair
or Adjustment.

Description:

The SR-V1 Skateboard Repair Station provides 5 of the most commonly required tools to perform typical skateboard repairs or adjustments. The tools are safely secured on flexible chain tethers for ease of use. The tethers are then fitted to a locking channel which is secured between the support posts.

The vinyl coated cradle holds the skateboard in the optimum position to perform repairs.

The Repair Station is a surface-mount design. 1/2"-13 Thread Anchoring hardware is included to secure the station to a concrete pad.

TOOLS:

- 1) Philips Screwdriver
- 2) 1/8" Allen / Hex Driver
- 3) 3/8" Socket Wrench (Mount Hardware)
- 4) 1/2" Socket Wrench (Axle Nut)
- 5) 9/16" Socket Wrench (Kingpin)

Chain Tool Tethers:

24" Long, High Security Chain, Cut Proof
 1/4" Diameter Hardened Steel, Transport Grade
 T-7 Type, with Corrosion Resistant Coating.

Finish:

Polyester Powder over Zinc Rich Primer.

Dimensions shown are in inches.
