CYCLE SITTER ***2-BIKE LOCKER***

- *General Specifications* -

Model: 850950

Rev.: 19Apr18

Top removed to show placement of bicycles.

Description:

The Cycle Sitter 2-Bike Locker provides secure, weather-resistant protection for your bike(s). Each bike nests in its own compartment with a separate locking door. With a user-supplied padlock, your bike and gear can be safely stored away from prying eyes. Solid sheet and tubular steel construction with no exposed fasteners provides extra security. Vandalism and theft is reduced because this locker cannot be burned or shattered like those made from plastic or fibreglass. Where space allows, several Cycle Sitter 2-Bike Lockers can be arranged side-to-side.
